

LYNX Touch

DYNAMIC, FULL COLOR TOUCHSCREEN SECURITY SYSTEM
AND HOME CONTROLLER

Your Connected Home

Honeywell

Your **Connected** Home

Honeywell's LYNX Touch is a dynamic, lifestyle-enhancing system that protects your property and possessions and lets you control your security system, thermostats, lighting, door locks and more—all from one brilliant, full-color touchscreen. Your dealer can even custom-design a system with options that work for your lifestyle.

Welcome to your connected home!

Energy and Home Management

Control your thermostats, lighting and locks with Z-Wave® enabled devices—making your home more comfortable while you save money and energy. See pages 3-4 for more details!

See Pages 3-4

Security **and** Convenience

Brilliantly Simple

The sleek, attractive LYNX Touch features a brilliant, 4.7" full-color touchscreen that makes security system operation easier than

ever — with graphics and menu-driven prompts guiding you every step of the way.

Easy to Read

The icons and words are large, clear and easy to read — making it great for family members of all ages.

Android™ Mobile Internet Device

You can control LYNX Touch anywhere in your home on a Wi-Fi®-enabled 7" Android tablet that functions as a portable system controller and mobile Internet device.

Full Voice Response

For an added level of security, system status and zone descriptions are announced in clear, spoken English.

Customized Information

Customized location-based content for weather, traffic and news can be delivered right to the touchscreen.

4G Advanced Alarm Communications

LYNX Touch finds the best signal in the area by auto-scrolling for 2G, 3G and 4G speeds, helping to make sure alarms can get through to the central station.

24/7 Monitoring

You and your family can enjoy peace of mind 24 hours a day, 7 days a week by having your security system monitored by a central station. These highly trained home security professionals are always standing by, ready to send help to your home in the event of a fire, burglary or other emergency.

Two-way Voice

When an alarm signal is received, the optional two-way voice feature lets central station operators listen in and talk to you or anyone else on the premises* — assuring you that the proper response personnel will be dispatched at a moment's notice should the need arise. Ask your dealer about availability.
**excluding fire or carbon monoxide alarms.*

Stay Informed

The "Follow Me" feature can call and alert you to alarms and remind you of important appointments.

Remote Control

With Honeywell Total Connect™ Remote Services, you can operate LYNX Touch from any smartphone or compatible device.

Energy & Home Management

When you add optional Z-Wave® enabled devices to LYNX Touch, you'll have centralized, fingertip control of your thermostats, lights, locks and more from one user interface. You won't believe how easy it is to stay comfortable, save money and save energy without having to change your daily routine!

Thermostats

Honeywell's Z-Wave® enabled thermostats can automatically adjust every time you arm or disarm LYNX Touch. You can also set scenes and schedules for comfort and energy savings, and control your thermostats remotely with Honeywell's Total Connect™ Remote Services.

Lighting

You can turn select indoor and outdoor lights on or off every time you arm or disarm LYNX Touch. You can also set scenes and schedules for ambience and security, and control your lights from any remote location with Total Connect Remote Services.

Locks

You can lock and unlock your doors wherever you are on premises automatically when arming and disarming LYNX Touch. You can also set scenes and schedules for added security.

Scenes and Schedules

Creating scenes and schedules with Z-Wave® devices can enhance your lifestyle and help you save money and energy without any change in your daily routine.

For example, a "Goodnight" scene could entail having the doors lock, thermostat setback and the lights shut off when you arm your security system at night. A schedule might be created to have the porch and hallway lights on and the thermostat set to a specific temperature an hour before you leave the office so you arrive to a comfortable, well-lit home. You can also schedule groups of devices to turn on or off at various times of the day. The possibilities are endless!

Get Connected

With Honeywell Total Connect™ Remote Services, you can perform many of the amazing functions of LYNX Touch remotely—including Z-Wave® thermostat and lighting control! You can also control your security system, receive alerts about important events via email, text messages or video alerts—even keep an eye on your home and family via live, look-in video wherever you are. Whether you use your PC or other compatible mobile device, the function icons look and operate just like the ones on LYNX Touch. Free apps are available.* For more information, ask your security dealer or visit www.mytotalconnect.com.

You can:

- **Know when** your children arrive home from school or if they haven't by a certain time
- **Remotely control** home heating, cooling and lighting for energy savings and comfort
- **View live**, streaming video on up to six cameras at a time, record and store video clips and have pictures emailed to you upon an event
- **Check up** on your pets
- **Receive alerts** for extreme temperatures, which may help indicate a power failure or problems with furnaces or air conditioners
- **Know if leaks** or floods have been detected in laundry rooms, kitchens, bathrooms or basements
- **Know if an elderly** relative or loved one has pressed a panic pendant to summon emergency help
- **Find out when** motion is sensed in outdoor areas like pools, patios or driveways, or if a garage door is left open
- **Receive notification** if activity is sensed by protected outdoor surfaces or valuables
- **Protect indoor** valuables from theft by receiving an alert if they have been moved or disturbed
- **Find out** if off-limits areas like liquor or gun cabinets have been accessed

Whole House Protection

Honeywell's wireless security products are an excellent complement to LYNX Touch—providing you with a higher level of convenience, peace of mind and the complete, whole-house protection you deserve. Their rock-solid stability and long battery life make them a popular choice among homeowners, with millions installed worldwide.

Safety Protection

Wireless smoke, heat and carbon monoxide detectors are connected to your alarm system and can be monitored 24/7.

Remote Keyfobs

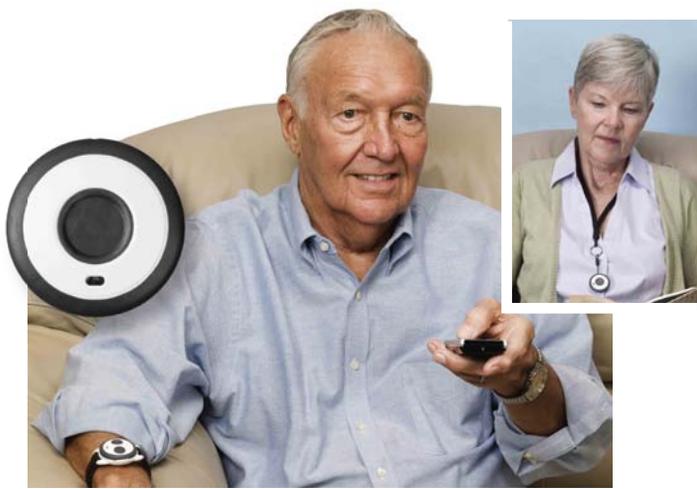

Our compact wireless keyfobs let you control your security system with push-button ease.

No Mess

Our wireless products help installers overcome obstacles like brick walls, cement floors and cathedral ceilings—resulting in faster, cleaner installations and preserving the beauty of your home while protecting it.

Emergency Help

Our panic pendants provide you with peace of mind by summoning emergency help with the press of a button. One or two-button keys let you, an elderly relative or anyone who may require emergency assistance send signals to the central station to summon the police or medical response personnel when an alarm is triggered. Compact and water-resistant, they can be worn wristband, pendant, belt or keychain style.

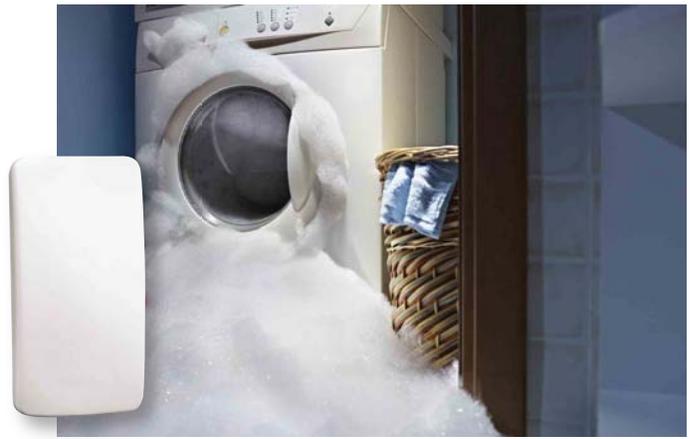

Indoor Protection

Indoor motion sensors help safeguard against intruders by causing the alarm to sound when movement is sensed in designated areas. They can detect the difference between intruders and animals—letting pets move freely about your home without setting off the alarm.

Theft Prevention

Wireless theft prevention sensors can be easily affixed to any valuable in your home and alert you when an attempt is made to move or disturb the object.

Environmental Sensors

Ideal for kitchens, bathrooms, laundry rooms, basements and more, Honeywell's environmental sensors can notify you when detecting floods, leaks and extreme temperatures—helping to minimize the risk of dangerous conditions and damage to your home and valuables.

Outdoor Protection

Our robust, all-weather wireless outdoor contacts and motion sensors keep you aware of what's going on around the exterior of your home while creating a safer environment.

- Outdoor contacts are used to detect security breaches on surfaces such as gates, sheds, fences, barns and detached garages
- Choose wireless outdoor motion sensors when you want to be aware of movement detected around areas like driveways, patios and pools

Portable Keypads

Wireless keypads are a great complement to LYNX Touch, offering portable protection that can be placed virtually anywhere in your home. They can also talk to you, announcing system status in clear, spoken English.
